

APSA ADOPTION AGREEMENT

APSA's aim is to make sure that our dogs/puppies are placed in loving, secure homes. Many will have already known hardship, neglect or abuse.

We need to make potential owners aware that to adopt is a lifelong commitment.

To that end we ask you to sign an adoption agreement.

APSA Adoption Terms & Conditions

All Applicants should read the following carefully:

1. You have considered all aspects of pet ownership and accept the commitment and financial responsibility of owning a dog.
2. You confirm that your dog will be a family member.
3. You agree to register the dog with a qualified vet and will maintain the vaccination, worming and flea programme.
4. You understand it is your responsibility to pay for all veterinary treatments after adoption.
5. If adopting a young puppy you agree to spay/neuter as soon as it is appropriate.
6. As APSA is unaware of the history of the dog you understand there are no guarantees against any unknown conditions or illness that may occur in the future. All dogs leave APSA with a full health check.
7. Once adopted you accept full legal responsibility for the dog's actions.
8. The rescue dog cannot be passed on for free or for financial gain.
9. APSA has the right to contact you from time to time to ensure that the dog is happily settled. A follow up home check may be required.
10. You agree to inform APSA of any future change in address.
11. You understand that APSA has the right to stop the adoption at any time.
12. You understand that if any of the terms and conditions are broken then APSA or one of their authorised representatives have the right to remove the dog from your care.
13. You understand that no refund will be given for any dog that has completed the adoption process.
